Statement from spokesman Ken Walsh on the Forest County Potawatomi's position on the proposed off-reservation casino for Kenosha, Wisconsin

"The Potawatomi continue to oppose this Kenosha proposal.

"This proposal has a history with corrupt individuals whose finger prints are still on the application today, and will end up sending hundreds of millions of dollars to the-out-of state gambling interests invested in the project.

"Because of its corrupt history and the promises made to out-of-state gambling interests, the Potawatomi continue to oppose this Kenosha casino proposal."
