Here to discuss Motion to Withdraw.

Court would like to not move the schedule, if possible.

**Govt:**

- have status conference set for 6/30 before this court
- sizable portion of Brown County search warrant material will be ready for return
- some material will need to be scanned and will take some time
- this case, bank fraud before 2011 - some of this scanned material may not be relevant to this particular case
- will anticipate setting another status conference at 6/30 hearing
- no concerns with attorney withdrawal - feel there is a potential conflict
- feel could have potential issue w/some of the search warrant material
- Govt is excused

**Court requests the remainder of this hearing to be SEALED.**
