REGULAR MEETING SCHEDULE

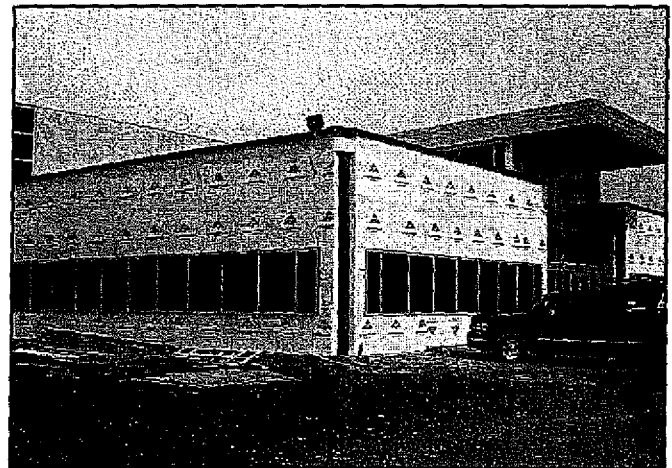

once / month at OSGC offices

OBJECTIVES

- A. Babcock I, LLC, which is OSGC's partnership with Management Enterprises, has completed Bellin Oncology. The facility opened for its first patients in early April. This facility is the only one of its kind in Northeast Wisconsin, which makes it a great benefit for the Oneida Community. This has been a great investment for OSGC and the Oneida Nation.
- B. Partnership Drive, LLC, which is OSGC's partnership with GADJAD LLC (Mr. Greg DeCaster) will be substantially finished with the construction of the state of the art manufacturing facility by the end of May 2008. This location will house Badger Sheet Metal. There will be a recruiting effort for Oneida Tribal members which will also include job training.
- C. We are continuing our marketing efforts for our Packerland Industrial Park. Currently, we are working with an Oneida tribal member on a Car Wash that will be adjacent to the Oneida One Stop on Packerland. Badger Sheet Metal is also located in our Packerland Industrial Park.
