

Oneida Seven Generations Corporation

The purpose of Oneida Seven Generations Corporation (OSGC) is to promote and enhance economic diversification on behalf of the Oneida Tribe of Indians of Wisconsin.

OSGC is in the process of developing, building and operating an energy recovery facility that will generate electricity from municipal solid waste. Energy recovery projects produce renewable electricity that displaces electricity that would otherwise be produced in an electric utility power plant that burns fossil fuel. We signed a long term Power Purchase Agreement with Wisconsin Public Service that will provide revenue for the next ten years. We have completed an Environmental Assessment for the facility grounds.

OSGC continues to manage commercial developments such as Bellin, Schneider Glory Rd, Badger Sheet Metal Works, West Mason and Packerland malls. We are at a 95% occupancy rate. OSGC also markets potential commercial properties on behalf of the Oneida tribe. We have allowed Tribal entities to use our facilities at no charge for community objectives (including the Elderly Rummage Sale; clothing drives; Oneida High School and the Annual Christmas Benefit).

OSGC is currently vetting and developing viable business opportunities that will provide complimentary revenue streams

The five members of the Oneida Seven Generations' board include: William Cornelius, President; Michael Metoxen, Secretary / Treasurer and members Nathan Hill, Tsyosha?aht Delgado and Shannon Hill.
