

6 PM - TUESDAY, JANUARY 16, 2018 **GTC SPECIAL MEETING**

What's *worse* than vexation *without* explanation? Exploitation without Representation

**GTC *must* RETAIN a LAW FIRM focused on
TRIBAL, ENVIRONMENTAL & BUSINESS LAW
to RESEARCH, ADVOCATE, and LITIGATE CLAIMS for
LOSSES & DAMAGES due to FRAUD, NEGLIGENCE & ABUSE**

The Oneida Business Committee hires non-tribal attorneys.

Oneida Seven Generations Corp. hires non-tribal attorneys.

**The Oneida Constitution GUARANTEES General Tribal Council's
RIGHT to hire non-tribal attorneys to protect GTC's shared interests
and to defend GTC against fraud, negligence, abuse, and exploitation.**

**GTC has long endured a lack of true '*due diligence*' at several levels:
fiscal, corporate, legislative, legal, judicial, and PR / communications.**

**GTC has risked 100's of millions of dollars from lack of accountability
by tribal corporations and the OBC and Oneida Law Office, as well as
outside attorneys whose '*real clients*' are the OBC & OSGC – *not* GTC.**

**GTC has suffered tens of millions of dollars in losses & damages from
complex '*green energy*' fraud schemes, but various culprits are *finally*
now being sued and prosecuted in local, state, and federal courts!**

**GTC *must* exercise its CONSTITUTIONAL RIGHT to retain experienced
and successful outside representation to research & recommend ways
to recover tens of millions of dollars and advise GTC how we can best
protect our health, safety, and welfare, and defend GTC against fraud,
negligence, abuse, exploitation & corruption ... foreign *and* domestic.**

**In order to have someone look out for *all* of us, GTC needs to retain
excellent outside legal representation that isn't related to *any* of us.**

I trust and recommend Attorney Stuart G. Gross.

**Leah Sue Dodge, Tribal ID #9705
Publisher, OneidaEye.com**
