

Held Exclusive Intellectual Property Rights

**UNDER A SEPARATE LETTER FOR EACH, THIS LIST IS MEANT FOR THE TRANSFER OF INTELLECTUAL
PROPERTIES/PATENTS/LICENSES/PULP GRADES AND SOFTWARE, TISSUE GRADES AND SOFTWARE HELD
TECHNOLOGIES/ GREEN BOX DESIGNS/PERMITS AND FDA APPROVALS:**

- 1) 100% Reclamation of Food Contaminated Waste Streams
- 2) Achieving 100% Sustainability from Food Contaminated Waste Streams
- 3) 100% Post Consumer Tissue, Carton and Cup Pulp Products
- 4) FDA Approved Post Consumer Cups remanufactured to New Cups
- 5) Zero Waste Water Discharge from 100% Post Consumer Pulp System
- 6) Zero Waste Water Discharge from 100% Post Consumer Tissue System
- 7) One Pulping System to manufacture pulp from Tan to Brown to 70 Bright White to 80 Bright White
- 8) Enhanced Fiber Additive (EFA) Patent and System Design, Equipment and Software
- 9) Wet and Dry Crepe Swing Tissue Machine System
- 10) Specialty FDA 40% Post Consumer Content Cup and Carton pulp
- 11) RAR Surface Water Cleaning System
- 12) RAR Waste Water Cleaning System
- 13) Pellet System to SynGas, Bio Char and Biofuels
- 14) Waste Tire Recovery System to SynGas, Bio Char, Electricity and Biofuels
- 15) Liquefaction SynGas to Turbine Generated Electricity to Waste Heat Drying
- 16) Virgin, Recycled and 100% post consumer EFA Tissue Products
- 17) Cotton Linter Tissue Patent
- 18) Cotton Viscose Pulp Technology
- 19) ASTM 975 Diesel Fuel Distillation Technology
- 20) After Dryer System/Double Felt Wet Crepe Tissue High Bulk System
- 21) Bio Char-Sludge-Soil Enhancement Products
- 22) Plant Seed Based Fiber-Waste Products to EFA
- 23) Green Box Satellite System=Environmental Permits and Design
- 24) Green Box Decant, Anti-Bacteria, Germicide and Chemical Application System
- 25) Green Box System
- 26) Lowest cost, lowest carbon footprint and waste liquid to ethanol system

These IP Type assets have been transferred from Tissue Technology, Partners Concept Development Inc., RVDH Development and Ronald H Van Den Heuvel.

Ronald H. Van Den Heuvel

Re: Intellectual Property Assets (1)

Ron,

Environmental Advanced Reclamation Technology HQ, LLC ("EARTH") and Green Box NA Green Bay, LLC ("GBNAGB") are willing and committed to purchase certain Intellectual Property (IP) rights held by Ronald H. Van Den Heuvel and RVDH Development Corporation.

The IP assets are required for the Green Box system for 100% reclamation of food contaminated waste streams reprocessed into 100% sustainable products.

EARTH and GBNAGB will purchase these IP Assets with membership units and deeply subordinated debt. The valuation of these IP Assets will be based mostly on the actual cost to develop them along with uncompensated time contributed to its development.

This letter verifies the conveyance of Technology for **100% Reclamation of Food Contaminated Waste Streams IP** for the use by EARTH or GBNAGB. EARTH or GBNAGB can use, license to others, add to patents, improve process, collect royalties or include Green Box system or Satellite system design. See Attachment "A".

Ownership of the aforementioned IP will continue to be held by Ron Van Den Heuvel or RVDH Development Corporation or in Partners Concepts Development, Inc. ("PCDI") or Tissue Technology, LLC (TTL) parties.

Ronald H. Van Den Heuvel
