You must write your concerns and/or ask of this office in this space. Please provide a brief summary explaining your problem/concern. You may also attach copies of relevant supporting documents as needed and/or use an additional piece of paper should you need more space to further explain. (use additional paper if necessary)

IN JANUARY of 2014, I talked to the FBI Green Bay, WI office,
Assigned Case Number 194B-MW 477598 regarding a cover up by certain
Oneida Tribe of Indians of WI Tribal leadership wherein approximately
\$90 thousand dollars of HUD (Housing Urban Development) money was
unaccounted for (See enclosed 14 page document.) The document is a time
lapse of events that I uncovered in my job as an Administrative Assistant
in the Oneida Tribes Housing Authority Application process. See Additional sheet,

I hereby authorize the Senator and her staff access to any and all of my records that relate to the information stated above.

414.297.4455 fax

In January of 2014, I talked to the FBI (assigned case # 194B-MW 477598) regarding a cover up by certain Oneida Tribe of Indians of WI tribal leadership wherein approximately \$90 thousand dollars of HUD (Housing Urban Development) money was unaccounted for. (See enclosed 16 page document.) The document is a time lapse of events that I uncovered in my job as an Administrative Assistant in the Oneida Tribes Housing Authority application process. Since that time and continuing yet today, I have been subjected by the tribe to harassment, intimidation, accusations and lies. My civil rights have been bashed, my EEOC rights exploited by the Oneida Tribes Human Resources department. Prospective employers, I believe, have been lied to about my employment history with the tribe thus ruining any job opportunities.

The FBI says they did an investigation, but find it peculiar that neither I nor others whom I know to have pertinent information have never been interviewed about this matter. Also, the Oneida Tribe has not followed any of its established laws. Enclosed are three (3) exhibits from the Oneida Tribes area of laws that are exploited in the name of sovereignty. The FBI says they are still investigating and have turned in their investigation to the Wisconsin States Attorney Office. This is not a WI State matter but a federal matter. The Oneida Tribe has not pressed any criminal charges against anyone and only proceeds to cover up this crime.

The FBI says this is a crime of property, and I m a victim along with the entire Oneida enrolled members. If this crime is left alone, the scamming of materials for personal gains that could have built 20 homes is unimaginable and beyond measure. It is hard to believe, when considering the history of nefarious treatment and deceptions endured

by Indigenous peoples in the making of this country, that the Oneida Tribal government would itself now use corruptive and illegal practices against its own people!

If this matter is not pursued in criminal court, then I will have been the scape goat. My life, my future will continue to be destroyed leaving me with no resource to protect myself and my family. I have been struggling the past two (2) years and the Oneida Tribes leadership continues to abuse me beyond anyone's imagination.

Where is the justice I have a right to, to protect myself and family. The Oneida Tribe claims sovereignty, but they are not above federal laws.

The new allocation of money for the Oneida Tribe of WI from HUD should be suspended until this matter is resolved.

§0.134

28 CFR Ch. I (7-1-11 Edition)

or agents or its corresponding organizational units or functions, respectively.

(b) *Exceptions.* Notwithstanding the provisions of paragraph (a) of this section, 27 CFR part 72, and 27 CFR 46.155, 178.152 and 179.182 as in effect on January 23, 2003, shall not be deemed applicable to the Bureau of Alcohol, Tobacco, Firearms, and Explosives.

Subpart W-1—Office of Tribal Justice

SOURCE: Order No. 3229-2010, 75 FR 70123, Nov. 17, 2010, unless otherwise noted.

§0.134 Office of Tribal Justice.

(a) *Organization.* The Office of Tribal Justice is headed by a Director appointed by the Attorney General. The Director shall be responsible to, and report directly to, the Deputy Attorney General and the Associate Attorney General and shall be a member of the Senior Executive Service.

(b) *Mission.* The mission of the Office of Tribal Justice shall be to provide a principal point of contact within the Department of Justice to listen to the concerns of Indian Tribes and other parties interested in Indian affairs and to communicate the Department's policies to the Tribes and the public; to promote internal uniformity of Department of Justice policies and litigation positions relating to Indian country; and to coordinate with other Federal agencies and with State and local governments on their initiatives in Indian country.

(c) *Function.* Subject to the general supervision and direction of the Deputy Attorney General and the Associate Attorney General, the Office of Tribal Justice shall:

(1) Serve as the program and legal policy advisor to the Attorney General with respect to the treaty and trust relationship between the United States and Indian Tribes;

(2) Serve as the Department's initial and ongoing point of contact, and as the Department's principal liaison, for Federally recognized Tribal governments and Tribal organizations;

(3) Coordinate the Department's activities, policies, and positions relating to Indian Tribes, including the treaty

and trust relationship between the United States and Indian Tribes;

(4) Ensure that the Department and its components work with Indian Tribes on a government-to-government basis;

(5) Collaborate with Federal and other government agencies to promote consistent, informed government-wide policies, operations, and initiatives related to Indian Tribes;

(6) Serve as a clearinghouse for coordination among the various components of the Department on Federal Indian law issues, and with other Federal agencies on the development of policy or Federal litigation positions involving Indians and Indian Tribes;

(7) Coordinate with each component of the Department to ensure that each component of the Department has an accountable process to ensure meaningful and timely consultation with Tribal leaders in the development of regulatory policies and other actions that affect the trust responsibility of the United States to Indian Tribes, any Tribal treaty provision, the status of Indian Tribes as sovereign governments, or any other Tribal interest.

(8) Ensure that the consultation process of each component of the Department is consistent with Executive Order 13175 and with the Department's consultation policy;

(9) Serve, through its Director, as the official responsible for implementing the Department's Tribal consultation policy and for certifying compliance with Executive Order 13175 to the Office of Management and Budget; and

(10) Perform such other duties and assignments as deemed necessary from time to time by the Attorney General, the Deputy Attorney General, or the Associate Attorney General.

Top Secret

I Dawn M Delebreau, an enrolled Oneida Tribal member, started working for Oneida Housing Authority as an Administrative Assistant in March of 2009. In my job I was required to handle all phone calls, mail, mortgage & rent payments, explain & help future tenant/clients fill out the Oneida Housing Authority's application process, refer tenants to appropriate staff for the handling of their concerns/complaints & create work orders in the HDS system that I was instrumental in creating that would track all repairs of work done in a HUD home on any given day. I was also to make copies & keep a list of all vendors that were to pick up an Oneida Housing bid package for future construction of homes/duplexes being built in a HUD funded grant program.

August 2, 2012, the Oneida chairman Edward Delgado had Linda Dallas (an assistant to Ed Delgado) and Martin Denny, Tribal Gaming Internal Investigator, walk out the Oneida Housing Authority Director, Dale Wheelock while putting Jay Fuss, Superintendant of Construction, and Shane John, Rehabilitation Supervisor, on paid administrative leave assigned to different work areas during the pending further investigation of approximately \$90,000.00 of HUD grant funded monies unaccounted for.

Approximately August 28, 2012, Jay Fuss and Shane John return to their jobs while Dale Wheelock is terminated reason being he was responsible for the accountability of funds as he was the director. Nothing was ever disclosed to the rest of us employees regarding the outcome of any investigation; we, the remainder of Housing employees, had the understanding that the internal investigators couldn't get enough information to do anything about anyone else so looks like case is closed with Dale Wheelock being terminated for mismanaged \$90,000.00 of HUD funded grants.

In July of 2012, I worked a community outing for one of our HUD housing sites called Three Sisters located in Green Bay, with Yadie Jourdan who was Jay Fuss's Administrative Assistant. I had learned from her that the investigators were looking at Jay Fuss's line item of lumber amount of over \$40,000.00 that was unaccounted for & had mysteriously disappeared.

I was dating Jay so I had asked Yadie if she had any idea where the lumber would disappear to. Answer no.

Now I am more than a little curious about the man I am dating like 1.) How is it he always has anywhere from \$500.00 to \$1000.00 easily accessible money on hand? 2.) Jay can lend more money to almost anyone who asks & lots of people ask him & not chump change. 3.) Jay made as much money (income) as my ex-husband, 4.) How is it Jay could build a \$30,000.00 car within one year's time frame while supporting a family, having a truck payment, house payment and utilities, not to mention his alcoholic addiction he was supporting? These questions were just a few in the back of my mind. My son Jonathan Delebreau also worked under Jay Fuss's supervision, so I began to question my son on some things like is he (Jonathan) suspicious of Jay & Jay's daily activities? My son informs me yes he knows he's shady but who is Jonathan to say anything? He's just a descendant which means nothing to the tribal people (unless it's your descendant). So Jonathan & I start sharing information. I also started taking note of the fact when Oneida Housing Authority was in the process of putting out bid packages for vendors to pick up for new construction all the same vendors were winning the bid packages. All these vendors had some kind of friendship and/or association outside of work with Jay. I as the front line administrative assistant was receiving calls from vendors regarding questions about the bid package that was put together by Jay. I was then forwarding these calls to Jay's personal cell, office work phone, & business cell. These calls would constantly come back to me asking why their questions are not being answered & Jay never calls them back to answer their questions. In order to put in an accurate bid, they need some answers to be completed by the closing date stated in the bid package.

The business committee now assigns Scott Denny as interim Director of Oneida Housing Authority. Note Scott Denny worked at Housing as an operations manager who was to oversee all areas regarding employee issues and concerns. Scott had no real understanding of how the building process or how HUD financial processes worked so Jay was a "GOD" to him; he never questioned what Jay stated as Jay knew building & Scott liked to hear himself talk.

January 2013, I come across some invoices that were placed in Jay Fuss's mail box upside down as I was placing his mail in his mail box. I noticed these invoices had an address on them of 2776 Candle Lane Green Bay WI. These invoices are billed to Oneida Housing Authority from Wisconsin Building Supply Co that outline materials bought for a house. What concerns me is: 1st They are placed upside down in his mailbox as if to hide them so anyone looking wouldn't notice. 2nd These same invoices are placed upside down on Jay Fuss's computer keyboard as if to say someone doesn't want you to forget these. 3rd Jay Fuss had an administrative assistant named Yadie Jourdan who was specifically selected by Jay Fuss & is also related to Jay & she was questioned during the first round of an investigation & couldn't handle the questioning so she walked away from her job. Yadie Jourdan quit--- resigned-- no explanation-- emailed in her resignation-- gone. When Jay Fuss comes back to work approximately August 28, 2013, he goes to get Yadie to come back, begs her & tells her he needs her desperately. Yadie's job was to work with the purchasing dept on all contracts for vendors doing business with Oneida Housing through Jay Fuss. Yadie did practically everything for Jay. Most all invoices are written & associated to a lot number as it is considered new development/construction & they don't have addresses on them until they are close to completion. In mid January when I came across these invoices I began to ask myself if Yadie knew more than she was willing to admit to? Is this also a bigger part of the investigation missed by everyone or just purposely being over looked? I called Nancy Vanden Heuvel who works in the purchasing department in another building. I inform Nancy I have these invoices that look suspicious because they have an address on them & they look like they are being put through HUDS financial process & when I look this address up in our system it is not one of our HUD homes. It is a land management home located in Green Bay WI owned by Sara Skenandore, who once worked over here in our offices & now is over by you under accounting dept. And I know that HUDS monies cannot co-mingle with Oneida Tribes Land Management housing process. Nancy informs me that she needs to talk with her boss Patrick Stensloff. I get a call back telling me to call Patrick. I call Patrick and I give him the numbers off the invoices to look up in their system.

Patrick tells me to make copies of them & drop them off at his office. Then I receive another call from Nancy telling me Patrick doesn't want me to drop anything off at his office. She said he's really worried but doesn't want anything in his hands. I say, what... are you serious? What the hell is that all about? What is going on? So I did make & take copies & brought them home with me. The following Monday I come into work and I listen to my audix phone messages on the company phone on my desk. First message is from Donna Christjohn who says hi Dawn my name is... I am from Internal Audit Dept of the Oneida Tribe and I understand you have some important information that can help me in an ongoing investigation regarding Oneida Housing Authority and its purchases. Will you please give me a call & she leaves me her work & personal cell number on my voice mail at work. Wow! Guess what! Yadie Jourdan has access to that voice mail because if I were not to come into work and a housing tenant were to leave a message regarding a work order or something that would have to be retrieved immediately anyone who worked in my absence would have to be able to retrieve the messages left. Approximately 15 minutes after that I receive an internal call at my desk; it is the Oneida treasurer's office Tina Danforth's assistant, asking me if I would come to her office for an appointment to go over the things I have come across & share what I may or may not know. Now I am scared as I realize that phone call I made to purchasing on a Friday, was I not only on to something but the man who is a head of all Housing purchase orders, Patrick Stensloff, made a few calls immediately after I gave him those invoice numbers & he specifically doesn't want anything to do with them, but I gave him enough information off them to go off of & now everyone is calling me right here at work jeopardizing me in every way possible with no thought or concern for me. I call both Donna & Tina back on their cell phones & ask them what they were thinking of calling me at work asking such questions! I am right in the front, I am not in position to answer questions nor do I want anyone to know who I am or what I found or what I may or may not be on to. Do you realize what this could do to me! I want to help; I will help but not from my job at work in this office. Tina then asked if I would be willing to meet her and go through what I found & what my suspicions were as I had confessed I was dating Jay.

I met Tina the following Sunday at Mary's restaurant in Appleton WI as I did not want anyone to see me with Tina Danforth especially if what my suspicions were telling me were right. I had told Tina I had also received a call from Donna Christjohn from internal audit she asked me if I would be willing to work with her give her information & express what I may be onto. I said not from my office at work I am not. Tina then told me to hold onto the papers I had & she needed to talk with some people & she would get back to me. Approximately one week from that call I am meeting with Donna Christjohn at my house discussing with her what I believe may be happening & how it may be happening. I had even disclosed information about me getting my house back through my divorce in April 1, 2012. And when I got my house back my living room carpet smelled like dog piss because my ex- husband's girl -friend had an Irish Setter living in my house with them. My son Jonathan & his fiancé & my grandson moved in with me June 1, 2012 & Jay had dropped off some boxes of hard wood flooring & told my son to replace the carpet as he gets all that stuff for a contracted discount price. Donna asked me if I ever saw a sale of purchase regarding the flooring. I said no but all of this makes me wonder. I was not fighting with Jay Fuss or on the outs with him when I had these conversations with Tina or Donna. Donna then asked if she could have my copies of invoices as she had written things down. I told her about why I had the suspicions I had of Jay-- things like the amount of money he seemed to always have on hand, the people who could call him up on a dime & borrow money no questions asked no contracts, the amount of money he would spend in a bar on any given day & he was a frequent customer of Brenda's Bar at least 5 days/nights out of the week, the fact that my ex-husband was dating Jay's ex-wife & my ex was constantly telling me he knew how shady Jay was through talking with other people & telling me about the materials he would give his ex-wife such as (brand new window cranks) for her whole house she just bought. There were conversations that I would walk up on while dating Jay & the suspicious behavior after or during, the people I had learned that he was their sub- contractor for their home, renovations, garage building, cabin, addition, etc. Donna then left my house & said, we will be in touch as I want you to talk with one of the investigators I work with.

I understand I am going to be removed & placed somewhere else to work while I am helping with the investigation to keep the integrity as well as myself hopefully safe. I said okay, but can I ask a question, how come none of this was ever looked at before. Donna's response to me was because by the time it gets to her the Oneida Tribe usually already has parts of things investigated through OPD (Oneida Police Dept) which really messes things up & then no one gets prosecuted for their crimes & you just happen to be very close to a good source. Donna thanked me & said I think you got it; you are able to put my missing pieces together of how things have been happening. Donna said we will be in touch. After you get moved to a different area then I will have you sit down & meet one of the investigators I work with. I talked with Tina Danforth several times on the phone regarding things I felt needed further looking into based on the individual that was supervising employees, such as fraudulent work comp claims, certain workers under Jay punched in on company time but working on a side job of Jay's being paid \$20.00 to \$25.00 cash an hour, tools that are purchased under HUDS funds but in Jay Fuss's possession as Jay knows that the tribe didn't have an equipment policy in place and anything under \$5,000.00 didn't require an asset tag to identify it as Oneida Housing Authority's property. All through January & February of 2013, I am being told by Jay Fuss that that HRD, Human Resource Department, & other tribal people throughout the Oneida community are telling him (Jay) that I am responsible for a continued investigation of him regarding Oneida Housing Authority & its discrepancies. I continue to deny & tell him I have nothing to do with the investigation.

March 7, 2013, my son Jonathan Delebreau ,who also worked under Jay Fuss as a construction laborer, gets beat up on company paid training at a Kalahari Resort in Lake Delton by a Spencer Cornelius (a habitual convicted felon) who Jay Fuss also had working under his supervision. I was at home with my younger children when the incident occurred. I was very instrumental in the process of working with an officer by the name of Kristine Seidl from Lake Delton Police Dept in finding my son & giving information about Spencer Cornelius & what was happening here at home.

Now I am extremely scared as I realize that the Oneida Tribe violated its own policies regarding the hiring of convicted felony tribal members. When I report this incident to Donna Christjohn, she immediately places my son Jonathan under employee protection as she realizes he is working under Jay & has also witnessed things supporting what I was suspecting & maybe knew more than I did in other areas. Jonathan & I both met with Thomas Fossbender, one of API's investigative personnel. Tom is very instrumental in getting Spencer Cornelius revoked on his parole as Kristine Seidl was just going to give Spencer an ordinance violation when Spencer was clearly violating more than an ordinance. Spencer has a history of abuse, beatings, drugs etc. Later I learned that Jay Fuss is related to the late Oneida Chief of Police Rick Cornelius who was fired from Oneida & then was a dispatcher in Lake Delton where the beating incident of my son Jonathan occurred. Rick Cornelius may or may not have had any influence over what almost didn't happen in the apprehension of Spencer Cornelius. However, it was told to me by Donna Christjohn that Jay was related to Rick & it was a little suspicious to them why Spencer wasn't arrested immediately when he was in clear violation of his parole. When this incident occurred, it is important to note how Oneida Housing Authority's handling of the incident made my son responsible by denying him his workman comp benefits for injuries he sustained at the hands of Spencer at a paid work training event. Spencer told me, Dawn Delebreau, on the phone after the beating occurred (because he thought I was Jay on the line) that he (Spencer) had just beat Chuckie's (Jonathan's nick name) ass for Jay. Horrible rumors started being spread back here from Jay Fuss and his cronies of family & friends that said Jonathan was arrested on family domestic charges which wasn't even true. Oneida Housing Authority's position then is to let Spencer's contract for employment run out & then turn around & hire him for a new full time position at the Oneida Farm where he was finally arrested for parole violating & he has spent his remainder in Brown & Outagamie county jail waiting for his plea hearing which takes place January 15, 2013, in Lake Delton WI.

March 14, 2013, I am removed from my full time of 4 years' position at Oneida Housing Authority as an Administrative Assistant and reassigned to an Insurance Clerk position under Risk Management for a 2 year limited contract.

I argue vehemently with Tina Danforth, the Oneida treasurer who created this transfer, stating I would never leave a full time benefitted position & accept a limited term employment contract for 2 years when I have a mortgage to pay & a family to raise. Tina assures me over & over & explains Dawn I need you to trust me, work with me here, I promise I will get you back to a full time position as soon as I can, but I can't create any suspicion as I can't trust anyone else in the tribe with the information you have given or can I have anyone be suspicious of the investigation we are creating around this as there is so much at stake based on the people Jay knows & the people he has helped or the influence it may carry. Tina continued with you need to respect the position I am in with regards to the tribal's financial future. I am putting everything on the line in this investigation & I promise you I will do everything in my power to get you into a full time position, I don't see that being much of a problem. Originally Tina said, I was going to have you come up here & work under me until you said no way that would be a dead giveaway that I am helping the treasurer's office. Everything was about trusting her & the people she had in play.

March 26, 2013, I call Donna Christjohn up & tell her I got a large index card in the mail with some threatening statements on it & the return address says BITCH FROM ALL OF US. The front of the card says my name flip card over and all around the card it says HEE HEE HAHA KARMA KARMA KARMA ITS COMING TO GET YOU! Donna asks me if I can leave work meet her in Appleton WI where she has set me up in Comfort Suites & wants me to meet with API the investigators. I do and I also have my uncle Ron Kelly come to meet these guys in reference to what's happening.

I still had communication with Jay Fuss as he was always coming to me when he was in desperation. For me I allowed the contact because I felt I was in a better position to know whether Jay was up to something against me & my son. I also found out through Jay that the women responsible for sending me that harassment card in the mail were Heather Martin- Denny who was an

Oneida Police officer & is now working for Wrightstown Police Dept, Julie Hintz, & Lynn Metoxen-Fuss, wife of a retired Oneida Police officer & a cousin to Jay Fuss.

These are all women that party hard with Jay & he has told them stories like he had told Spencer Cornelius so they would do his dirty work for him.

April 9, 2013, Jay asks me to help him begs me to help him get help for drugs & alcohol & claims that he wants my help as I won't let him lie to himself or to the people in position to get him the help he needs. It is important to note that throughout my relationship I am beginning to see a pattern of depression, alcoholism, drug addiction, & sex addictions. Many times he would call me in the early morning wasted, crying, telling me how sorry he is, how much he loves me or needs me. A couple of weeks before going into the Keystone Treatment Center in South Dakota he had asked me to help him at 3am or he was going to commit suicide so I picked him up & took him to Bellin Psychiatric facility for a 3 day detox & in patient process. His friends & family were furious with me, Jay often said I can lie to them & they can't see through me but you can. Jay tells me I know him better than he knows himself. I was also suspecting Jay of having bipolar disease as the highs were extremely high & his lows were severely low, I would find him with a loaded gun by his bed side as he was becoming paranoid & was experiencing delusions, but I knew I wasn't the expert to get him diagnosed properly but also knew he genuinely needed help and I had worked for Oneida Behavioral Health in the past and was aware of how much our system wants to help our people get off the drugs & alcohol so I used my connection & got the proper channels working together. My concern for myself involved with this man was I also didn't want to be responsible for bringing him down & him committing suicide without any proper medical treatment to deal with himself or the illegal things he may have done.

May 9, 2013, Jay returns from South Dakota Indian reservation Keystone Treatment Center for drugs & alcohol. Jay does not return to work for approx. 2 weeks as he says he wants to re-acclimate himself back slowly,

because he understands the friends he hangs with have not changed & he needs to change the way he thinks, not them. After approximately 3 weeks I start to notice more lying, evasion, secrecy, & I realize he hasn't changed anything about the alcohol his moods are erratic. I get the sense that he put himself through all that treatment stuff to fool the Oneida Tribe & me into believing in him so he could hold onto his job. The Oneida Tribes policy is they can't fire you if you admit you have addictions & you go to get the necessary help required. The only problem is once he is back no one is enforcing any random drug testing & before you know it Jay is back to himself. Deceiving, conning, creating drama & purchasing more housing tools for his personal use. I am still in contact keeping API abreast of the situation I am dealing with regarding Jay & conversations Jay is having with other employees namely Victor & tools that he seems to be giving away to Victor.

In July of 2013, I realize if I am going to continue to fall for Jay's manipulations of me & let him use my guilt of bringing him down then I need some continual counselor's guidance & help for Jay. I felt the need to take the pressure off myself hoping I can get him to the counselor & Jay & the counselor will do the necessary work. So again, I reached out & contacted a counselor by the name of George Kamps that I knew was very good in his field & I was familiar with. I explained to him everything I had been through with this man but more importantly that I feared for his safety & even my own safety regarding him, but I felt I could not deal with anything on my conscience if something bad were to happen to him if I chose to ignore Jays next cry for help without at least giving him the tools to deal with himself and his actions.

May through August I am still working with API investigators a couple times in office but mostly now helping them put notes together explaining where & how I came upon receipts for things purchased on Oneida Housing Authority's credit card. I am talking with Tina Danforth text messaging back & forth regarding things about Jay keeping her abreast of the continual harassment I am taking

from Bob Keck. Talking with Tina Danforth & Larry Barton(who works under Tina) about the constant harassment I am receiving from my boss Bob Keck (who is under Larry Barton). Tina & Larry think they have more control over Bob, but they don't, as things are escalating in the investigative form & questions are being asked & Bob Keck wants to know more & more & Bob Keck is communicating with HRD (human resource dept) which is stationed in same office area as Risk

Management & Sara Skenandore, whose house is directly under investigation; works in the finance dept upstairs same building as I. Boy my world is getting awfully small & people are really talking & pressure is on & nobody seems to care what's happening to me or what has happened to my son! I am taken into the office of HRD manager Geraldine Danforth who says she knows why I am up there...because I am a "whistle blower" & she doesn't like the fact that I was moved there without her permission or knowledge until after the fact as she was on vacation when they moved me over there. I explain to Geraldine I am sorry you were not brought into the process as I had nothing to do with the process as well but I think you should be more concerned about what information I have & whether it will jeopardize the future of HUD grant funded homes for tribal members. Geraldine clearly states she doesn't like me & regardless of what I may or may not be doing to help the tribe has no bearing on her opinion of me she just knows we would not get along. I continue with I am sorry to hear that then maybe you can explain to me how our own HRD policy was broke not once but twice by hiring two convicted felons. Geraldine says what two. I start off with Spencer Cornelius who is Oneida but for an Oneida to get a job within the tribal process they have to 5 years felon free. Spencer was not when he came into Oneida Housing employment process. She said, how do you know he wasn't? I said, not hard to figure out ccap him then take the date he came to work close but not close enough. Who's the other? I said, how about Victor Munoz. Geraldine said, how do you know? I said, you shouldn't insult my intelligence I went to the horse's mouth herself. I asked Terri Hetzel who happens to be Victor's mother in-law. Terri told me that Victor was 3 months just out of prison & wasn't able to get a job anywhere so she came to work & talked with Victrietta Hensley who was working on a "TRANS" program that worked with tribal people

getting them education while making them employable. However, Victor is not Oneida is ineligible for a pardon from the tribe to even work for the tribe but somehow we broke those rules as well & gave him a job because he is married to an Oneida. And yet we have so many Oneidas that want a job, can't get a job here should be eligible to work for the tribe but yet we can justify hiring a non-Oneida that is a convicted felon right out of prison. We have no Oneidas in the job pool, I find that really hard to believe. Maybe we should have an internal audit of HRD's practices by an outside source & then create a whole new HRD personnel where policies are actually followed not just for a select few but everyone. In October I had learned through other staff as well as Jay Fuss through Sara Skenandore that my computer & cubicle at work were cautioned taped off & the tribe had MIS & OPD going through my personnel things on computer as well as my desk. What I then found out was that they MIS had gained access to my yahoo account where I had sent all the pictures of the work that was done at Sara Skenandore's house 2776 Candle Lane from my iphone, that clearly showed more than the \$52,000.00 home equity loan she was approved for. This house had everything re-done, dry wall, carpet ceramic tile, hard wood flooring, completely new windows throughout the house, new garage doors (2) entrance doors to garage the (2) stall full garage door, a keyless pad entry code system for garage door, new concrete driveway, new appliances dish washer & microwave system above stove, all new toilets, sinks for kitchen & bathrooms, light fixtures, counter tops in kitchen & bathroom, all cupboards in kitchen & bathroom refaced with edged glass on the kitchen cupboards, new sinks, shower tub & glass assembly door, marbling done to the inside wall of shower, new roof, huge deck off back of house, new fence around the back yard, & Sara was given extra hard wood flooring to complete some rooms in the basement at a later date when ready. The only thing that was not re-done on this house was the siding.

November 1, 2013, I am terminated from my position & all the things promised to me are no longer viable & Larry Barton, who is above Bob Keck, is helping Bob terminate me with everything I was told or promised while working with the

Investigators.' As soon as they were done using me & they had more than enough information I was expendable.

I hired an attorney by the name of Brian Stevens who has also worked for the Oneida Tribe and also followed tribal law. Through this attorney the appeal was won as Brian himself had talked to HUD regarding what had been happening to me as I brought information forward. HUD had confirmed with him as well that I should be filing under the "whistle blower" law to protect myself. As it was explained earlier to me from a HUD employee by the name of Joseph Templin, I had already put forth information that I had in my possession which had become compromised erased from my computer and now I have a lawn mower that I believe was purchased with HUD funds & now that I am terminated API is looking to pick up this piece of equipment & I shouldn't just hand it over to anyone as they are not police. I don't know what this means for me. API, Tom Fossbender calls me to ask me if he can make arrangements to come pick up the lawn mower and based on earlier conversation with him was I willing to talk about anything regarding my house. I said as it stands right now I trust none of you with everything that has happened to me & my family I sit on one of the houses that has evidence of hard wood flooring put in it. Tom continued to say Dawn I didn't agree with what they did to you but I am just an employee doing what I am told & I wanted to pick the lawn mower up from you back in August but that wasn't a priority. I said let me guess because you are hired through the tribe & you do what the tribe wants you to do even if it's wrong & illegal but that's okay because you are hired by the tribe not Dawn. Well I trust none of you not Tina, Larry, or any of you. Know this I will take this as far as I have to I did not come this far or am I going to let anything more happen to my family because of Jay Fuss or the Oneida Tribe trying to bury what has been going on because it's too big & too many people in high positions may be affected but it's okay to dismiss my family. I finished with telling him any further contact with me would have to go through my attorney. Brian had made contact with Tom & Brian had said that Tom agreed that he understood I had nothing to do with any of the stuff regarding Jay the lawn mower or anything in my house. Brian had asked if he could get that in writing & then we can make arrangements for the pickup of the lawn mower. We have not seen any such thing thus far. Also I went to Outagamie county

police dept to report suspicious activity of vehicles stopping in my drive way in front of my house vehicles I normally don't see down my road as if they are stalking me & my home. I tell Outagamie Sheriffs Dept that I am worried about my safety & I want it on record that I would never knowingly hurt myself in case something happens to me. I also explained what I have been doing working with an investigation in reference to Jay Fuss & that Jay has already put someone up to hurting my son. Sheriff's investigator first explains that things don't work that way just because you tell me that. He said an investigation usually works backwards from homicide to suicide. This investigator also tells me he wants to send someone out to talk with Jay Fuss & I said "no" you don't understand that only puts a bigger target on my head. Jay doesn't do his own dirty work people do it for him. I feel better just reporting it & allowing communication with Jay as then all his friends/ family don't take his fight on because they know he's communicating with me. Well wouldn't you know after a couple of months of not talking with Jay & then Jay reaching out crying asking for my help again, I learn through Jay Fuss that my stalkers are Heather Martin- Denny who was once OPD & now works as officer for Wrightstown, & Julie Hintz another woman that Jay has had a relationship with. Jay tells me they want to hurt me they want to make something bad happen to me & Heather is all about following me to see if she can call the police on me for something. I said, well Jay this is good to know what is it you are telling them for them to want to do this to me. Nothing they just don't like you.

December 12, 2013 my son Jonathan is hit by a plow truck that Jay Fuss is driving on company time while working on the job. Jay Fuss gets out of the truck & comes completely unglued at Jonathan for this incident. As Jonathan says I am shoveling snow there are two different driveways that need to be plowed & 3 of us guys are shoveling at this one duplex & Jay comes to the duplex where I am shoveling & hits me with the truck knocks me down with a vehicle & yells at me & makes me responsible for the incident. How does that work? Jonathan fills out a workman's comp claim for that incident thinking they can't deny this one can they? Jay has the other two guys Richard Denn & Kent Brunette write up statements that Jonathan wouldn't move. Jonathan says my back is facing him I

am shoveling Jay doesn't honk to alarm Jonathan that he wants Jonathan to move aside he doesn't even roll the window down & ask him to move, he just continues to drive the plow truck until it knocks him down. Jonathan gets a call from Crawford Insurance workman's comp lady wanting Jonathan's version of what happened before they made a decision on the claim. Jonathan says straight forward lady starts laughing. Jonathan asks what is so funny? Jonathan said lady says I am laughing because your supervisor doesn't have that written down neither do his witnesses. Your supervisor says you refused to move. Jonathan's response was well I never had a conversation with him he never told me he needed me to move & the last time I checked pedestrians had the right of way so if someone doesn't move you can just hit them with a vehicle, by the way he's no longer my supervisor. He was fired. Lady answers well I have decided we are going to put your claim through.

December 18, 2013 Jay Fuss is terminated. Jay had told me that Dale Wheelock was willing to write up Jays appeal & Fred Muscavitch who used to be Director Of Oneida Land Management who walked away from his job took early retirement because his practices at Land Management were under investigation. Then I understood from Jay that he wasn't going to fight for his job back because if he left things alone & go there's a high probability that nothing will happen to him as the tribe is known for not prosecuting its own people or he would have already been prosecuted.

API was instrumental in the Oneida Housing Authority's disbandment of the Oneida board members in 2008 who lavishly spent hundreds & thousands of grant funded dollars on themselves, their families & not one of them was federally prosecuted by the tribe. To the contrary, they were professionally reassigned, some in better positions then where they came. Fern Birdsedale, who was in Oneida Housing Authority as the Director got a \$50,000.00 buyout for all of her accurate information to keep her mouth shut & not tell or sell her story. Fern now contracts work with the Oneida Tribe under her own business working through Lac Du Flambeau Tribe. HUD did nothing about it believing that the tribe would decide how to punish its own & they entrusted the tribe to take care of business. It is my strong belief that because I figured out what was going on right

under so many noses & that I was a person that wasn't going to stand for it or am I willing to let anyone sweep this under the rug at my expense or my family's, the Oneida Tribal business committee members that know about this will do anything in their power to make the innocent guilty because the work they have cut out for themselves is bigger than they are & it sure is a lot easier to get rid of one or two employees that bring about information rather than change its dirty practices. I also believe there are too many high powered positional people who knowingly benefitted from the illegal things Jay Fuss was doing for them or giving them. What they don't realize is how this affects all tribal people not just a few.

Brian Stevens, by the way, is not tribal. I have won my appeal in reference to my termination. However, I have not been placed back in my job nor have I been put in another job as of yet & it was Pat Garvey the Oneida Tribal attorney for employees that told me it is her opinion that my son Jonathan & I should quit our jobs & go elsewhere. There has been talk about putting me at the Oneida Museum again just for the remainder of the two year contract I was reassigned under not putting me back into a full time position. I believe it is just as important to inform you that the Oneida Tribe has been making some changes to their process in lieu of evidence & information I have brought forward. However, there has been a re- assigning of Jay Fuss's crew under Shane John re- habilitation area as the crew has been told they don't what is going to happen to New Development of Oneida Housing Authority which I believe is just another tribal tactic.
