Subject: Broadway Manufacturing LLC

Dear OBC,

Previously, I have expressed my concern that, according to the application to the City of Green Bay in regards to the Biomass project, an LLC by the name of Broadway Manufacturing LLC has recently been established as of January 13, 2011 (2 months ago).

As I stated above, I have previously expressed my concern regarding who is and who owns this newly formed entity that will "develop, build and operate" the Biomass project, according to the documentation submitted to the Green Bay City Council.

In November of 2008, the General Tribal Council passed Resolution 11-15-08-C. That Resolution, under the 3rd Resolve, directs that the "no agent of the Tribe shall enter into any agreement with any corporation that prohibits full disclosure of all transactions (receipts and expenditures and the nature of such funds) and that such agreement is not binding to the Tribe."

I am again requesting information which complies with the full disclosure requirements under GTC Resolution 11-15-08-C.

Thank you.
Ed Delgado, Business Committee Councilman
