

June 28–30, 2013 -- Phil Marshall's killers linked to 9/11, Pinal Air Park, and Iran–contra

<http://www.waynemadsenreport.com/articles/20130628>

Those who murdered 9/11 author and former Iran–contra CIA contract pilot Phillip Marshall in the last days of January this year, were hoping to block Marshall's investigation into the role that the Pinal Air Park/Marana Airfield outside of Tucson, Arizona played in the 9/11 attack. It is noteworthy that Pinal is the home to America's "boneyard" of retired civilian aircraft, including Boeing passenger aircraft. Nearby Davis–Monthan Air Force Base is the home to the boneyard of retired military aircraft. In addition, the CIA and US Special Forces maintain operations at Pinal, the CIA through its contractor, Evergreen International.

The senior U.S. Judge for the Middle District of Alabama, Mark Fuller, the judge who sent former Alabama Democratic Governor Don Siegelman to prison on trumped up charges, is a major player in the 9/11 operation owing to his former ownership of Doss Aviation, the U.S. Air Force contractor that trained Egyptian Air Force Lt. Col. Mohammed Atta at Maxwell Air Force Base in Alabama and who also had contracts to train Saudi pilots.

The following is an unedited set of background notes, except for redaction of one sensitive name, provided to WMR by a knowledgeable source on the key players linking Iran–contra to 9/11. The Pinal/Marana link to 9/11 is what helped seal Marshall and his children's fate:

Potomac Capital set up by GHW Bush in 1976 while he was CIA Director. Potomac Capital was pattern for BCCI. Potomac Capital was Bush's funding mechanism for CIA ops.

Eastern Airlines planes ended up in eastern Afghanistan. ULTRAIR Boeing 727s. Frank Lorenzo, Texas Air Corp., bought Eastern.

ULTRAIR went out of business with 2–3 Boeing 727s.

Noriega tried to make too much money from drug business. Before John Negroponte was nominated, a US witness who saw Noriega loading drugs at an airport in Panama City. Witness colleague of [redacted] who saw Noriega deals because he shared same hangar in Panama City was arrested by Federal authorities and then released.

Name mentioned at Noriega Miami trial - Hartmut Kelhoffer. Austrian - lived in Vienna. He called [redacted] in April 1996. Said he was in a snowstorm on the Italian side of the Adriatic with a Hungarian named Baliko. Kelhoffer is an expert on international funds transfers. He went to Scotland and had a Panamanian corporation with a brass plate office in Zurich. Office raided in 1996 by Interpol and Swiss police. Kelhoffer sent \$10 billion on June 23, 1996 from Cyprus (on behalf of Saudi Royals) to Enron Houston via Barclays and possibly through Canadian Imperial Bank of Commerce. This was LJM1 off-the-shelf money. When one of the LJM1 partners wanted out and his money, the partners did not have it. This was the money for CentGas pipeline. Russian Finance Ministry was aware of the money transfers to Enron from the Saudis. Enron and UNOCAL negotiated on pipeline with Taliban in Sep 1996. Kelhoffer now in Geneva. Kelhoffer friend of Gaidar Aliev of Azerbaijan. Kelhoffer is likely the bag man between Yeslam Binladin and Osama Bin Laden. John Hannah knew of false radio signal used to bring down Ron Brown's aircraft while Kelhoffer and Baliko (a Hungarian expert on sending false radio signals) were in Italy.

Three Arabs involved in financial transfers arrested a few weeks after 911 in Fort McMurray, Alberta. [redacted] told James Baker. Baker told former US amb. to Israel and Syria Ed Djejerian.

In 1995, Kelhoffer moved \$10 million to hijackers, including a \$50 K check made payable to one of the hijackers. Drawn on Nation's Bank, Pasadena, TX and written by Egyptian [redacted] had seen to it was jailed in Dallas. Check dated Sep 22, 1995 and made payable to Fayez Ahmed (one of WTC2 hijackers) of Delray Beach, FL. Fayaz Ahmed was on initial Fox News list following 911. FBI later said it was a kid in Houston paying for college. Another check out of \$10 million written to Hamilton (Lee).

John Hannah, Lufkin, Texas, Charlie Wilson's best friend. Hannah's son is a federal judge in Tyler, Texas.

[redacted] noticed an ULTRAIR plane at Lambert Field, St. Louis. Told White House chartered their planes. GHW Bush leased the planes from the financially troubled company. Janet Reno had the investigation of Bush-ULTRAIR links as a top priority. Vince Foster, Dept WH Counsel discovered that ULTRAIR was being used to buy weapons and ship them to

Afghanistan. Frank Lorenzo was in Afghanistan after he left Texas Air. Mujaheddin was funded out of Houston. Safra killed by a hit man from Mexico. Bracewell and Patterson is now Bracewell Giuliani (Pat Oxford of Bracewell Patterson brought in Giuliani 4 months ago. US funds in Italy (for special ops) are handled by Banco Nazionale del Lavoro. Bank tied up in the Vatican Bank scandal.

Yeslam Binladin, Kelhoffer, Potomac Capital (Geneva), Manucher Ghorbanifar office where Potomac Capital is located (same office building). [redacted]: CIA woman once turned white when he mentioned Potomac Capital. Potomac Capital played a hand in Honduras and El Salvador, Iran-contra (Negroponte and Hannah).

Frank Decolater, NBC News producer, was aware of Five Star Trust gold stash (from Marcos) in NYC.

Here is some additional raw intelligence received from a knowledgeable source, where the circuitious links finally reach Evergreen International at Pinal/Marana Airfield in Arizona:

It has been my experience that the SEC listed agents are a good source to locate links to certain companies that have ties such as the one you have written about above. In this case agent 1193125, SEC does not usually provide names, links Evergreen to several companies of interest to me in re: Hobbs Act violation complaint. They are as follows: SECinfo.com shows links to Agent 1193125 of Evergreen family of companies that are of interest to us: UNISYS and the Republic of Panama; Warren Buffett; Blackrock; ING family of companies; Gary Halbert's family of companies; JP Morgan; Harte Hanks which has a Larry Franklin listed - a Larry Franklin has recently been indicted for treason with Israel; NU SKIN: Kopin - Neal Bush; PTECH; American Realty Inc. Gene Philips of First Equity and Southmark [S&L bank robber]; DuPont; Pennichuck and Veolia; State Street Bank; Banyan; TETRA HOLDINGS US, Marisco, Danone, Vornado, Comerica, Marathon Oil, AIG, Ace, Mischer, Sarofim Fayez,

[Ptech]; Phoenix Technologies, and many more connections to Hobbs Act violators.

Also I have found that certain names are connected to that family of names - i.e., Evergreen connects to Evergreen Capital, etc. In the case of Evergreen Capital again its the agent, Advisor Compliance Associates, Washington DC. One of the links is Nevis Capital Mgmt LLC which links to Hyperion Solutions. Besides Amerindo, Hyperion Solutions issuers include: FMR, Pilgrim Baxter and MFS.

Advisor Compliance Assoc.llc also links to Emerson Investment Mgmt 11 Beacon Street Boston MA.

In re: Datotech. I found a DSI Datotech Systems Inc. out of Vancouver whose agent is 1130319. This agent also is agent for Hollinger, Ravelston Corp, Nortel Networks and Alderwoods companies - linking back to Evergreen.

Note: The Hobbs Act criminalizes extortion and robbery by companies and labor unions. Datotech was key in throwing the 2004 Ohio electoral votes to Bush and John Kerry took the fall willingly. Datotech and Vancouver were part of the operation to reprogram the Ohio voting and counting machines. The key player in the operation was also a major federal agency conspirator 50 years ago in the assassination of President John F. Kennedy.

As with most scandals of our time, the Marshall hit bears the unmistakable fingerprints of the Bush family and their cronies. WMR continues to investigate the Marshall family murders, notwithstanding the "case closed" pronouncement of the very dubious Calaveras County Sheriff, Gary Kuntz, and his newly-imported "handlers."
