I tried, but they would not listen to reason. This is a terrible mistake and will cost dearly. Thanks for the updates and let's keep up the fight.
Best
Paul

Subject: Oneida and BIO Project

PL,

Today, the OBC (except for ED and PH) will pass a resolution to proceed with the Ashwaubenon location of the project. This is an exercise of sovereignty just because we can....the point seems to be to do the project at all cost rather than to do a successful project. This is the pattern of 7.
