**Re: *United States v. Fransisco Martinez***  
***Brown County Case No. 18-CR-151***

Dear Judge Griesbach:

I will not be submitting a Reply to Government's Responses to the Defendant's Pre-Trial Motions. As to the Motions to Suppress, both parties are in agreement a evidentiary hearing is warranted and necessary. The disputed facts and law and arguments are found in the original Motion to Suppress, Supporting Affidavits, and the Government's Response. And so a Reply is not necessary.

Similarly, the positions of the parties have more than adequately been set forth as to the Motion for Bill of Particulars and Motion to Compel Exculpatory and Impeachment Information as to Cooperating Witnesses and Confidential Informants and the Government's Response to these motions. And so a Reply is not necessary as to these motions either

I did notice an editing and proofreading error in the **Conclusion** section of the Motion to Suppress as it relates to the Fond du Lac County Traffic Stop. Therefore I am filing today an Amended and Corrected Motion to Suppress as it relates to the Fond du Lac County Traffic Stop.

Respectfully submitted,
